Signature of Pet Owner: _____ Date: _____

MCH is Pet Friendly!

Middlechurch Home of Winnipeg acknowledges the important role pets play in many residents' lives and we welcome visiting pets.

To ensure the safety and comfort of our residents we have developed guidelines for visiting pets.

We appreciate your cooperation and look forward to future pet visits.

Pet Program Guidelines

Visiting pets must be registered with MCH before entering the home. Please complete the attached registration form and return it to front reception.

Submit a current copy of your pet's vaccinations, municipal license and ensure your pet is clean, well groomed and in good health (free from hookworms, fleas, skin lesions, infections or any communicable disease) when visiting.

Continue to submit up to date vaccinations and when current vaccinations expire per veterinary documentation.

All bite injuries caused by an animal:

⇒ must be promptly evaluated and treated by a medical professional

⇒ reported to Animal Services (call 311 for Winnipeg and (204) 223-5521 for West St. Paul)

⇒ Reported to the owner and pet program in charge person, and documented in the residents medical record.

⇒ An excitable or nervous pet or a pet that has ever bitten a human must never be brought into the facility

Pets must be leashed, supervised, well behaved and under their owner's control at all times . The pet owner is responsible for any and all damage or injury caused by the pet.

Every reasonable and practical effort shall be made to keep animals away from residents with allergies, phobias, or dislikes.

Hand hygiene shall be practiced by staff, residents and visitors before and after any contact with pets. Families are responsible for cleaning up after their pet.

Animals are not allowed in the following areas of the home:

- food preparation, dining and storage areas
- Village Pump
- linen and laundry areas
- medication areas
- maintenance areas

Visiting pets shall be removed if excessive noise is disturbing to the residents, or if any other condition of the program is not met.

The home reserves the right to limit the number of visiting pets at any time. Contact between pets unfamiliar to each other should be avoided to prevent the potential for responsive behavior outbursts.

Reptiles, rodents, and amphibians (ex: snakes, lizards, iguanas, and turtles) or other animals posing behavioral or disease risks (ex: raccoons, skunks, ferrets and bats) shall not be allowed in any facility.

Once your pet is registered it must wear their visiting pet name tag during all visits to the home.
